

Connecting with Tigers

Student Activities

A conservation partnership between Dreamworld, teachers and students to help save tigers in the wild!

Tiger Island Questions

Which species of tigers live at Dreamworld?

Find out the approximate height and weight of adult Bengal Tigers?

SEX	HEIGHT	WEIGHT
Male		
Female		

Compare this to your own height and weight?

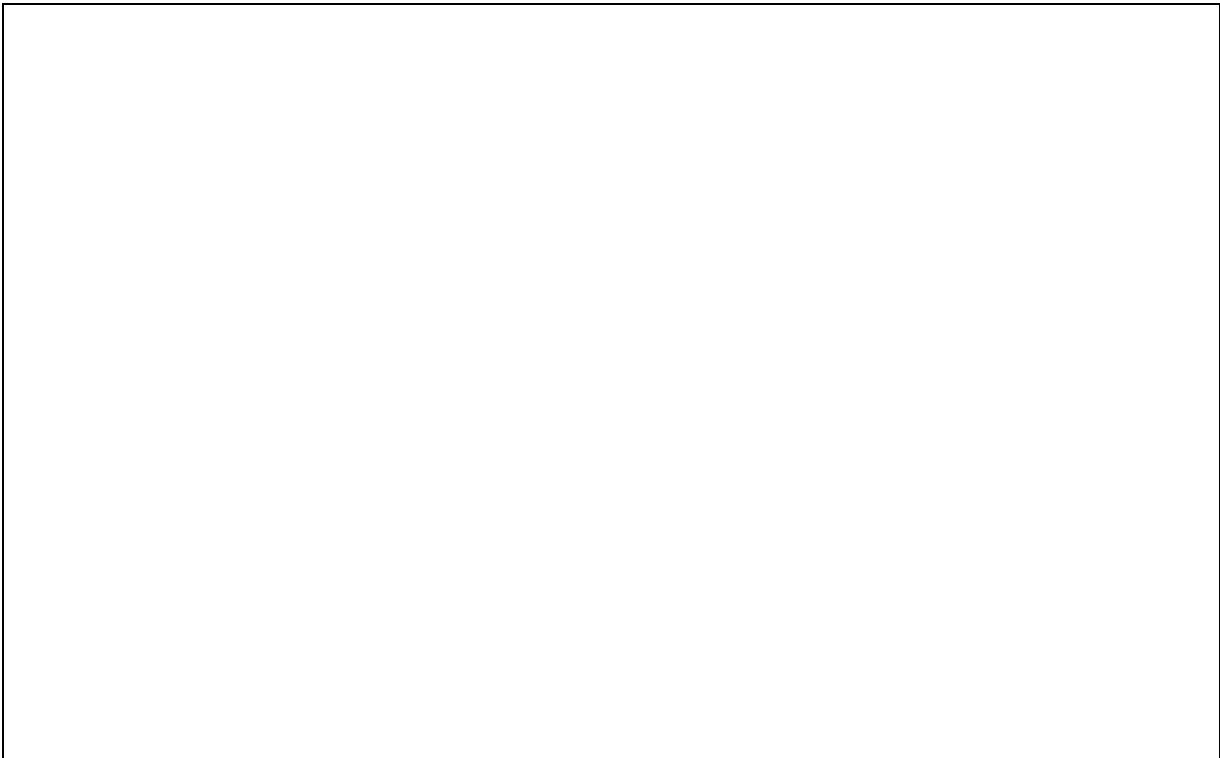

Spend some time observing the tigers at Tiger Island. List 3 behaviours that you noticed?

1. _____
2. _____
3. _____

What do tigers eat in the wild?

Describe some of the hunting tactics tigers use to catch their prey?

Describe the habitat of tigers and draw a picture in the space below:

Description of habitat:

The following table looks at tiger's features or adaptations and how they use them to survive.

To complete the table observe the tigers and if you need assistance, ask the tiger handlers some questions.

Feature	Picture	Use
Teeth		A tiger's extremely strong jaws and sharp, long teeth make them superb predators.
Ears		
Stripes		
Eyes		
Legs		
Claws		

Can you list 3 reasons why the tigers are endangered?

**hint: do not forget to check out the conservation display*

1. _____
2. _____
3. _____

Approximately how many tigers remain in the wild?

What role do zoos and places like Tiger Island play in conserving species of tigers?

What can you do to help save tigers?

Thank-you for visiting Tiger Island and learning about the tigers and how you can help!
